

La Grange School District 102

Social-Emotional Learning Tenets

Relationships

Relationships and mutual respect are the core of a successful learning community.

Assets

Building on students' strengths, interests, and cultural backgrounds maximizes learning.

Motivation

One of the key ways to provide conditions for growth and to foster creativity is by emphasizing intrinsic motivation.

Instruction

In order to prepare our students for their future, explicitly teaching and modeling social and emotional competencies is as important as teaching the academic curriculum.

Discipline

The aim of discipline is to instruct, teach, and guide, helping children to develop self-discipline and restore relationships while keeping their dignity intact.
